Other Partners

Formal Commitment to Addressing AMR

- Released September 2017
- Supported by organizations representing 200+ animal health companies and 700,000 veterinarians
- Underpinned by concrete action
 - Responsible use partnerships
 - New vaccine and diagnostic R&D
 - Research and monitoring
 - Veterinary support

**View full Commitment
and 'Principles in Action'
HealthforAnimals.org/OurCommitment**

Five Core Principles

Principle 1: Protect animal health and welfare in a unified One Health approach.

Principle 2: Use antibiotics judiciously and responsibly.

Principle 3: Promote disease prevention and increased access to products and expertise.

Principle 4: Invest in development of products for prevention and treatment.

Principle 5: Increase knowledge, transparency and communication.

Building on 20+ Years on Activity

- **AMR is a global threat to people and animals**
- Our 'Commitment' is a continuation of decades of action
 - Ongoing responsible/judicious use campaigns
 - Voluntary product labelling
 - Cross sectoral coordination with the food chain
 - Farmer/vet educational campaigns
 - Media campaigns about prevention/vaccination
 - Support for WHO Global AMR Action Plan

Our global network is available to bring this experience and work with partners to address AMR at regional and national levels

AMR Partnerships

Our network can help countries:

- Develop AMR plans and disease control/treatment approaches
- Assist with monitoring and mitigation strategies
- Balance welfare with the need to preserve medicines

HealthforAnimals and our network can provide:

- In-depth expertise and knowledge (species, disease, geographies, tools)
- Thousands of well trained company staff
- Vast amount of useful information materials/insights

**HealthforAnimals and our Members are committed to being a part of the
AMR solution**
